

Switch Stacking 10 Gigabit Optical Ports

Overview

Two of the 10G SFP+ ports are used to connect several SGS-5240 series, enabling to build a virtually logical facility. The SGS-5240 series gives the enterprises, service providers and telecoms flexi.

Switch Stacking 10 Gigabit Optical Ports

Mesh door/glass door optional

User port stacking support for up to six units and unique mixed mode stacking that allows stacking of S4048-ON with S4048T-ON to provide combination of 10G SFP+ and RJ45 ports in a stack

X440-G2 models support high-speed stacking when running ExtremeXOS SummitStack-V via its two built-in 10Gb ports. Up to eight switches can be stacked, providing 40Gb per unit and allowing use of ...

Download the datasheet. The DXS-3400 Series switches feature a modular fan and power supply design for a high availability architecture. The hot-swappable design means that fans and power supplies ...

To stack two or more devices, reconfigure the desired network ports as stack ports in the switches and connect the switches with the resulting stack ports in a ring or chain topology.

Gigabit Ethernet LAN Switch Family is an industry leading, branch, campus workgroup, and enterprise, value access solution. These are simple, flexible, and secure switches ideal for out-of-the-wiring ...

Each 10 gig SFP switch has 4x1G/10G SFP/SFP+ ports, ideal for efficient fiber aggregation and high-density fiber connectivity solutions. These 10 Gbps switches also come with 10/100/1000Mbps ...

QSFPTEK S7300-48X2Q4C L3 aggregation switch is designed with 48x 10G SFP+, with 2x 40G QSFP+ and 4x 100Gb QSFP28 uplink ports, supporting stacking. The S7300 Series gigabit ethernet ...

Positioned as the distribution or aggregation layer switch for large networks, the SGS-5240 series supports IP stacking function that helps network managers to easily configure up to 24 switches in ...

The T1700X-16TS features 12 10GBase-T RJ45 ports and four dedicated SFP+ fiber slots, which can support up to 320Gbps of combined switching bandwidth. This provides great resiliency, relieves ...

At less than half the cost of a managed switch, this series of switches provides 24 and 48 gigabit ports for connecting devices to the network, along with four 10GE SFP+ ports for stacking or uplink to ...
