

# What are the special connectors and optical cable assemblies

## Overview

They're custom-built (or pre-made) with specific fibers, jackets, and connectors to handle everything from harsh outdoor environments to delicate lab setups. According to the Fiber Broadband Association, global fiber optic deployments grew 20% in 2024 alone, fueling demand for. Amphenol DC Electronics is a custom cable assembly and wire harness manufacturing company. We specialized in the design, engineering, and manufacturing of custom wire harnesses, cable assemblies, and integrated electronic mechanical devices (box builds). An optical fiber connector enables quicker connection and disconnection than splicing. These assemblies aren't one-size-fits-all.
