

What is a bundled fiber optic patch cord

Overview

Bundle patch cord is multi-core round cable with conventional optical fiber connector at both ends. Instead of having individual round cables, ribbon cables have several fibers laid out side by side, typically in a flat and compact. What Is a Fiber Optic Patch Cord?

A fiber optic patch cord (fiber jumper) is: Typical applications: A patch cord is the “bridge” that connects two fiber devices and lets them talk to each other. Our stock fiber optic bundles are terminated with SMA905 connectors and are offered with high OH fiber, low OH fiber, and our mid-IR fluoride optical. Fiber optic bundle cable, also known as pigtail bundle, only has a connector at one end, while the other end is a fiber break.
