

Wide-temperature industrial switch manufacturer

Wide-temperature industrial switch manufacturer

That's why we pride ourselves on our selection of temperature sensors for industrial applications. We carry a wide family of accurate, robust, and low-cost temperature switches.

Ashcroft ® temperature switches control high and low temperature operating limits in a broad range of applications. Simple and easy to install, they are available in a variety of configurations, including ...

Our switches offer versatile performance for multiple heavy-duty applications. Along with temperature, we also offer a variety of customizable options to choose from such as thread sizes, integrated or ...

When you need a quick response, choose SOR temperature switches. They consistently lead the industry in sales year after year because of their small dead band ranges and legendary reliability. ...

These components are used in heating systems, pneumatic circuits, control panels, and equipment monitoring, contributing to efficient operation and process stability. Explore the links below to learn ...

This section provides an overview for temperature switches as well as their applications and principles. Also, please take a look at the list of 23 temperature switch manufacturers and their company rankings.

Manufacturer of low differential pressure switches for hightemperature, voltage and current applications. Offered in single pole double throw (SPDT) snap action type with zinc die cast ...

The Bourdon - Baumer Group range of temperature switches offers reliability and proven resistance to harsh environments and processes. Bourdon temperature switches can be custom made to match ...

Managed, unmanaged and Power-over-Ethernet (PoE) IP20- and IP67-rated Industrial Ethernet Switches are robust and versatile, helping enable industrial automation and monitoring in challenging ...
